

RIO 180

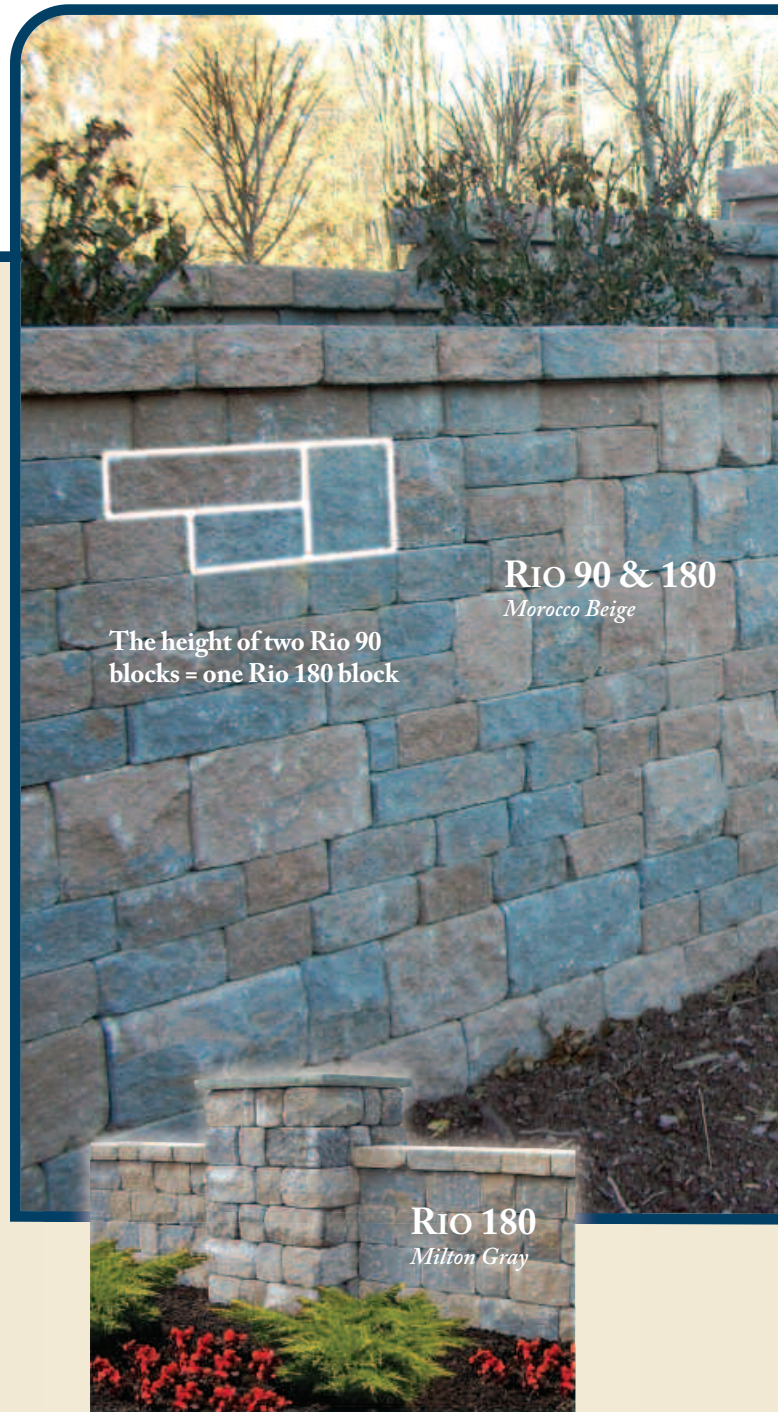

ANTIQU
RETAINING WALL

Rio 180 is the largest line of the Rio system, each stone measuring 7" high. Used in combination with our Rio 90 and 135 systems, the 180 block adds a weighted element to any design. This large-sized block allows for the construction of taller structural walls within residential and commercial applications.

Cutting, glue and field adjustments may be necessary when installing modular retaining wall units. Rinox recommends the use of glue on all vertical units and corners.

RIO 180 PILLAR

Rio 180 is the largest of the Rio systems with each stone measuring 7" high. As with both the 90 and 135, Rio 180 is available in two lengths, adding a custom look to your home landscape. Perfect for a secured entryway or wherever you need a bold element, our Rio 180 pillar kit makes a statement you're sure to agree with.

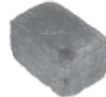

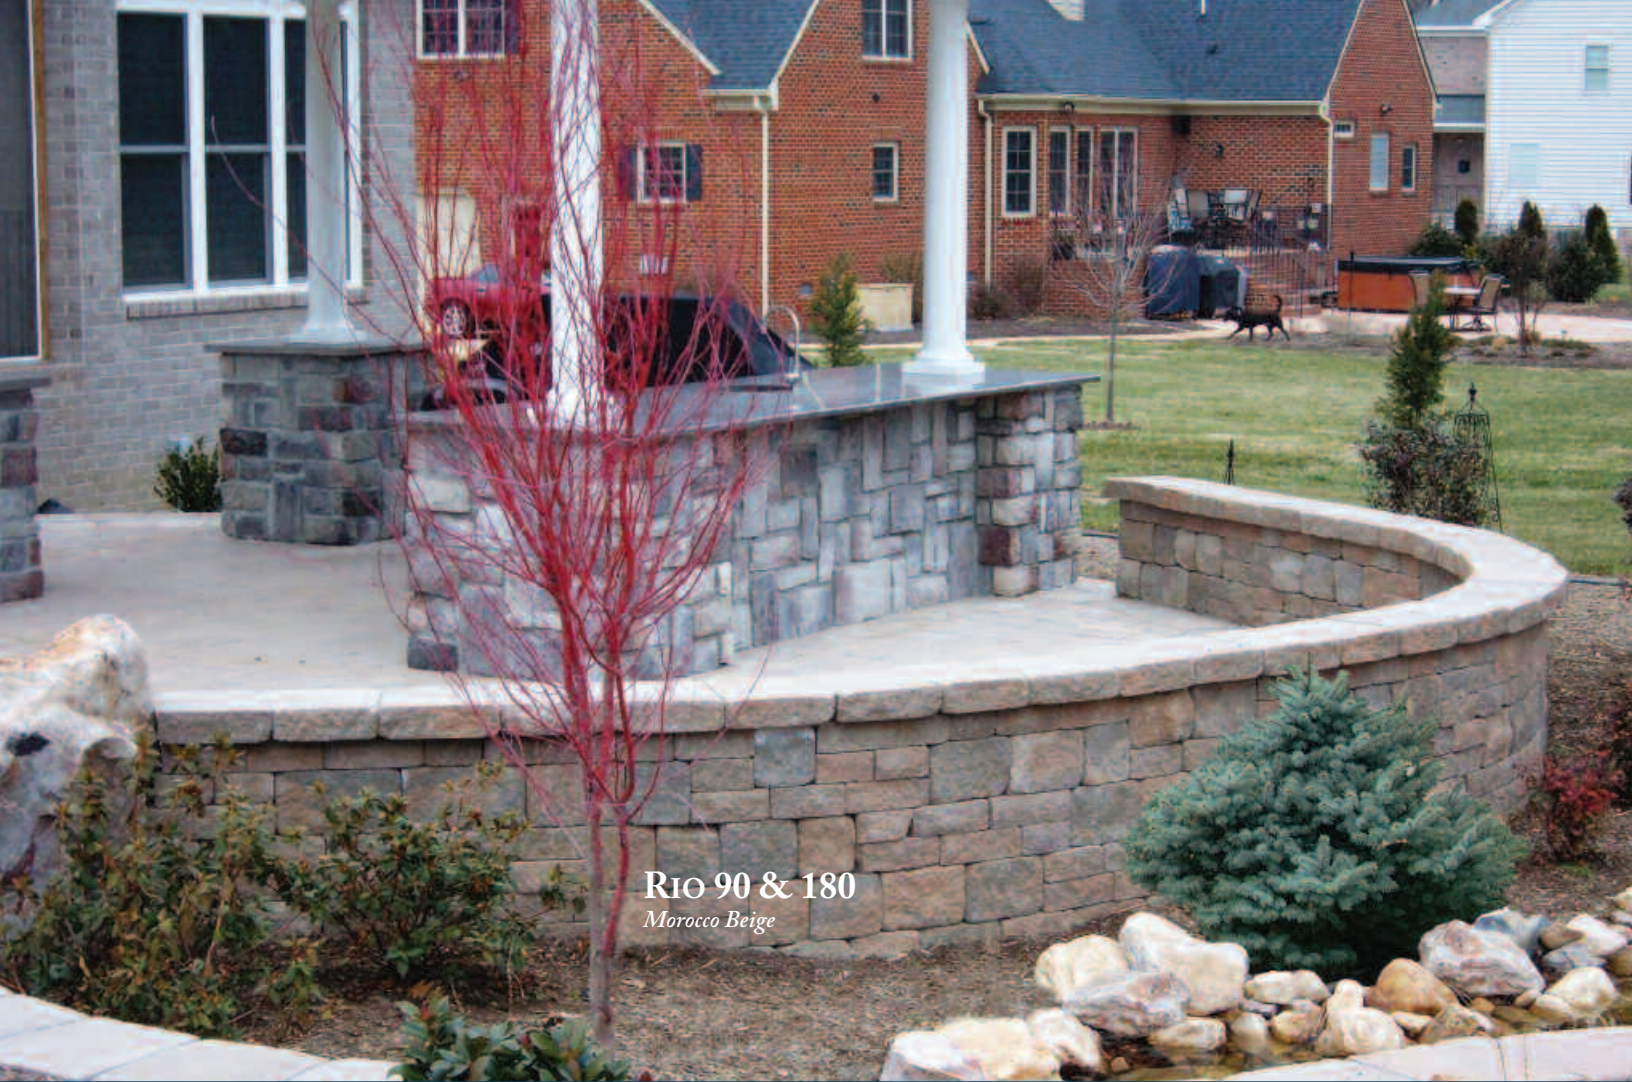

RIO 180 WALL

Sq. Ft. per Pallet	Layers per Pallet	Sq. Ft. per Layer	Weight per Pallet
28	3	9.33	2950
 A 7" x 8 1/2" x 8"	 B 7" x 8 1/2" x 10"
