

RIO 90

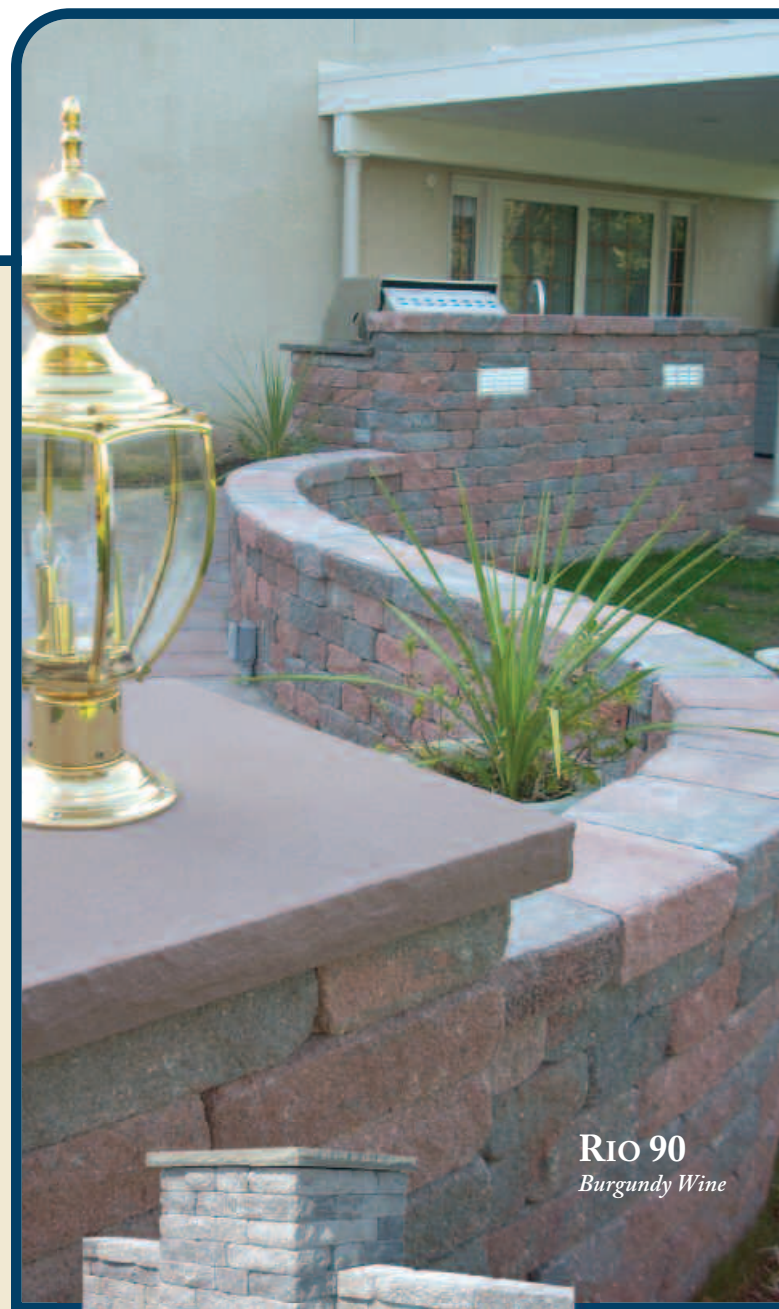

ANTIQU
RETAINING WALL

Rinox is proud to offer a featured enhancement to your retaining wall designs. Rio is a versatile, double-sided system that includes three different sizes: 90, 135 and 180. Add the wall jumper unit to break up the horizontal repetition and make smooth transitions from your beautiful wall to its coordinating pillar.

Rio 90 is a randomly installed wall stone that gives the natural appeal of weathered block. It is extremely versatile and can be used for flower bed, retaining wall, knee wall, freestanding wall and barbecue and fire pit applications. Rio 90 is a double-sided wall system and can be installed as a freestanding wall for the same cost.

RIO 90 PILLAR

The Rio 90 pillar kit is a favorite when a narrower stone is desired. Each stone measures 3 1/2" high, and like all of our systems, this pillar kit fully integrates with our wall systems. Used in conjunction with Rio 180, it's sure to add the perfect element to your design.

RIO 90 WALL

Sq. Ft. per Pallet	Layers per Pallet	Sq. Ft. per Layer	Weight per Pallet
28	6	4.67	2750
 A 3 1/2" x 8 1/2" x 8"	 B 3 1/2" x 8 1/2" x 10"		
 C, D *3 1/2" x 8 1/2" x 12"	 E 3 1/2" x 8 1/2" x 14"		

**May also be used as a vertical jumper unit.*

RIO 90 PILLAR

Sq. Ft. per Pallet	Layers per Pallet	Sq. Ft. per Layer	Weight per Pallet
25	6	4.17	2200
 A 3 1/2" x 8 1/2" x 8"	 B 3 1/2" x 8 1/2" x 12"		

RINOX DESIGN TIP

When integrating natural boulders into your landscape design, make sure you bury at least $\frac{1}{4}$ to $\frac{1}{2}$ of it – it will look more natural that way.
