

# WARNING PAVERS

*Color: Red*

Designed to meet the Americans with Disabilities Act (ADA) requirements for “detectable warning,” these pavers aid in alerting pedestrians of an impending hazard. The top surface has non-slip properties and incorporates raised, truncated domes, which are easily detectable underfoot and by cane. This paver is an additional guidance for wheelchair and pedestrian access to streets, sidewalks and other components of the public right-of-way. Rinox warning pavers maintain a premier architectural appearance and stand up to the toughest conditions.
