OCTOBER

Unique Challenges:

The owners of this beautiful home in Chadds Ford, PA desired an outdoor living space that was not only large, but also versatile. The homeowners wanted a patio where they could enjoy small, intimate gatherings with their family, and also entertain large amounts of guests. They decided to call Dan Kelly, owner of Kelly's Landscaping, to help design and install a raised patio adorn with [retaining walls](#) and steps that would not only meet their needs, but also withstand the test of time.

Creative Solutions:

Undertaking a large project like this takes time to properly design and implement. Kelly's Landscaping chose to create a two-tiered raised patio, essentially creating two outdoor spaces that could be combined into one large space when needed. Elevation changes in a patio really add a nice touch to the aesthetics while also helping to separate areas within that space. Kelly also wrapped [retaining walls](#) around the finished patio to add a feeling of privacy. The homeowners and Kelly chose [Rinox's Palazzo Modulo](#) in their Panama Beige color, not only for its beauty, but also for its durability.

Quality Results:

Prior to the installation of this gorgeous patio there was not much to be seen in the backyard of this home, just grass, but now the homeowners have a beautiful patio to enjoy for years to come. The beauty of [Rinox](#) pavers is that if installed properly, they will last a lifetime and don't require staining or much maintenance. The owners of this residence love their new patio and already have plans for other hardscape projects around their home in the near future. Dan Kelly has been installing pavers for many years now and continues to excel at providing fantastic results. [Rinox](#) is pleased to have Kelly's Landscaping as a member of their [Preferred Contractor Program](#).
